Easy Clear High Performance Water Quality System for Tea 1 unit

Perfect for iced or hot tea brewers where hard water can affect tea clarity and taste.

Increases tea stand time.

Provides 4350 grains of hardness reduction.

Minimizes service maintenance and equipment downtime with reduced scale forming minerals.

System includes a head assembly integral mounting bracket and single cartridge filter.

Quick C onnect valve-in design simultaneously shuts off and vents water with 1/4 turn, allowing for simple and trouble-free cartridge change-outs

Integrated carbon block media to reduce taste and odor.
