Medium/High Volume 1 1/2 gpm Water Quality Systems 1 unit

Consistent great-tasting brewed coffee and tea from water with reduced sediment and chlorine taste and odor.

Equipment protection from reduced sediment particles that can clog the sprayhead.

Reduced scale formation by the controlled release of proprietary scale inhibitors with L model.

System includes a head assembly integral mounting bracket and single cartridge filter.

Quick C connect valve-in-head design simultaneously shuts off and vents water with 1/4 turn allowing for simple and trouble-free cartridge change-outs.

Filter cartridges incorporate carbon block media and require no pre-activation.

Optional pressure gauge allows monitoring of downstream water pressure.
