## Complete Store Water Quality System with Two Outlets 1 unit

Two outlet water filtration and scale-inhibition system for high flow-rate and capacity environments  
Consistent great-tasting beverages and ice from water with reduced sediment and chlorine taste and odor.  
Incorporates multi-zone pharmaceutical grade pleated nylon pre-filter.  
Reduced scale formation by the controlled release of proprietary scale inhibitors as tested by the manufacturer.  
Auxiliary inlet gauge port allows optional monitoring of differential water pressure.  
Filter cartridges incorporate carbon block media and require no pre-activation.

Product # : BM390000013

Quantity Per Package : 1

Availability : In Stock

Price : **\$837.09**
