DESCRIPTIONS :

Crystal clear dust mop treatment is a dressing for dust mop heads to aid in the removal of dust, dirt, and other abrasive matter from floor surfaces. Mop heads treated with this compound act as a "dust magnet" to attract and hold particles until mop is cleaned or laundered. Treatment is non-oily and leaves a dry, protective, plasticized film on the surface of wood, asphalt, linoleum, vinyl, vinyl composition, rubber, terrazzo, concrete and gymnasium floors. Will not harm waxed or finished surfaces, and floors appear brighter and more lustrous
