DESCRIPTIONS :

Keeping a professional kitchen clean can be an arduous task, but these food service towels will surely make it a bit easier. Each towel is thick, absorbent, reusable and utilizes the Microban antimicrobial product protectioneasily killing microbes such as bacteria, yeasts, molds and fungi upon contact. Microban's formula is specifically designed to penetrate the cell wall of the organism, making it unable to function, grow and reproduce. Best of all, because the antimicrobial formula is built into the product, it won't simply wash off. The towels also feature a new and improved design for better scrubability and bigger apertures to capture and release food debris. Towel/Wipe Type: Wet/Dry; Application: Foodservice. ~ Includes 150 towels.
