DESCRIPTIONS :

Highly absorbent and nongranular so it's perfect for placing directly on machinery. Will not damage plant equipment. Low profile so it fits in tight places. Tuck it in or around machines to catch and contain leaks at the source. Increased fluid-holding capacity so less sorbent is used. Permits simple reclamation for recycling of valuable liquids and reuse of sorbent. Minimizes sorbent waste for disposal. Ideal for placing in, under and around machines to catch drips.
